This Month:

It is hard to believe we are wrapping up the school year. It has been a wonderful year of learning and growing with the children. Our field trip to Islands and Oceans will be a great way to end our learning on birds. If you are able to volunteer for our Field and Science Days on the 21st and 22nd we could use the extra hands on deck! We know it can be difficult to keep routines during the summer but the more you can put aside a consistent time for reading the easier it will be for your student to maintain their reading level and stamina. You can also help them keep a daily journal by writing what they did during their day.
