This week in Kindergarten...

We will continue our study of living things through observations and reflections of living things on our school grounds and in the classroom (insects, trees, plants). This week we will be exploring symmetry and asymmetry through movement, art, math, and literature. Students will continue to work on identifying numerals and cooperate with a friend to play the game “number concentration.” It will be a great week!

Explorations with hand instruments in
Music!

Home Links

- Can your child match upper and lower case letters?
- Can your child make rhymes? Play rhyming games in the car this weekend!
- Read with your child every night!

Thank You!

Thank you for joining us for our first Kindergarten Family Connections and Potluck! We look forward to sharing more with you throughout the school year!

Thank you for joining us on our Being There Experience to our neighborhood Creek (Squitz ‘Atnu)! We will be visiting the creek throughout the year to help connect to our learning experiences in the classroom.

Thank you for your support inside and outside the classroom! We are in this together!
