What should I expect from this class?

Each class consists of 5 parts: Warm- up, Exploring the Concept, Developing Skills, Creating, and Cooling Down.

The Warm- up is important to get our brains and bodies ready for movement and prevent injuries. We will do simple stretches and the Brain Dance.

During Exploring the Concept, we will learn more about the dance concepts through movement games, improvisation, and problem solving.

Next, the Developing Skills part of class will allow us to work on specific dance technique skills like jumping/ leaping and turning. Our focus will be on Modern and Jazz dance technique. We also may learn some folk dances.

The Creating part of the class is where you will be able to create your own dance movements and collaborate with the class to choreograph simple dances.

Finally, the Cooling Down part of class allows us to share, reflect, and review what we have accomplished in the class.
