

# Mrs. Stroh's Newsletter

## April 16, 2021

Discovery is to obtain knowledge through study and research.

### Parent Communication

We think parent-communication is extremely important! If you feel the need to speak with me always feel free to email me: [kstroh@kpbsd.k12.ak.us](mailto:kstroh@kpbsd.k12.ak.us) or call at the school (907) 283-0804 and we can set up a Google Meet conference.

### Important Upcoming Dates

#### April

23rd—Material Pick Up anytime after 10:00 am

23rd—Placement Forms for next year are due

#### May

7th—Last Material Pick Up of the Year

14th—All school materials are due (books, science materials, etc.)

### *This week we focused on:*

**Math**—Practicing using parentheses and looking at data to record and analyze.

**Writing**—Practicing descriptive science writing and using adjectives.

**Reading**—Reviewing main idea, fluency and understanding non-fiction text.

**Art**—Creating ocean creatures and zones.

**Science**—Comparing and contrasting seaweed and plants, and we looked at the food chain beginning with phytoplankton.

### Projects

**The *Ocean Zone Projects* are looking FABULOUS! The students are doing a great job with art and writing! I would like to share the projects with our school as they would love to see them too. Please bring completed *Ocean Zone Project* to school on April 23rd when you pick up the new materials. I will display them until May 7th, the last pick up day, and then you can take them home. Please make sure they complete each ocean zone with an animal and some facts. Again, they look great!**

### Practice, Practice, Practice

Please practice basic math facts with your students, both addition and subtraction. Also, continue to discuss place value—hundreds, tens, and ones. Also, practice reading everyday for at least 20 minutes. I will be assessing the last week of April and first week of May.

Next Week's Lifelong Guideline : "Creativity" To generate ideas; To create something original or redesign through imaginative skill.
